**After demobilization, Grigory Prokopyevich returned to his native village, a former front-line soldier began working at a seven-year school as a teacher and studying at the Chelyabinsk pedagogical Institute. For the young teacher, this was the second front, because the difficulties of the post-war period had to be overcome not only in everyday life, but also at school.**

**In 1955 he was appointed Director of the school. In this position, he worked with some interruptions until 1979, for 17 years. Grigory Prokopyevich's school-the Chimiris school - was the name of the Yalanskaya school when it was run by this amazing gifted teacher.**
